Snippet 1

Original Error:

Cannot add a string and an integer ("Hello" + 1).

Fixed Error:

Converted the integer to a string using str(1).

Added db.close() to properly save the file.

Snippet 2

Original Errors:

for i in a is missing a colon (:).

print(sum(i)*2) is not indented correctly.

Fixed Errors:

Added a colon (:) after for i in a.

Indented print(sum(i)*2) correctly inside the loop.
